Projects on Waste Management

Name of Activity: - Projects on production of electricity using waste management

Date: 26th April 2022.

Participated by: B.sc 3rd (N.M.) Department of Physics Guru Nanak College Budhlada

Objectives: To prepare projects on production of electricity using waste material and on Waste Water Treatment Plant.

Outcomes: In this project, under graduate students worked on production of electricity by using solid waste material. This project can be implemented on large scale for converting waste-to-energy in plant, which can be a waste management facility that combusts waste to produce electricity for municipal waste incineration, energy recovery, or resource recovery etc. The photographs of the activity are given below:
